EARTHDAY.ORG's theme for Earth Day 2021 is Restore Our Earth™, which focuses on natural processes, emerging green technologies, and innovative thinking that can restore the world's ecosystems. In this way, the theme rejects the notion that mitigation or adaptation are the only ways to address climate change. **It is up to each and every one of us to Restore Our Earth** not just because we care about the natural world, but because we live on it. We all need a healthy Earth to support our jobs, livelihoods, health & survival, and happiness. A healthy planet is not an option — it is a necessity.

More than 1 billion people in 192 countries now participate in Earth Day activities each year, making it the largest civic observance in the world. Today, we invite you to be a part of Earth Day and to help further climate action across the globe. ([earthday.org](#))
