

Paraguay / Argentina

lundi 26 septembre 2016, par [Sisters of St. Joseph of Cluny](#)

This is a relatively young and very vibrant region of the congregation where the Sisters are active and have a great missionary spirit. Anne-Marie Javouhey is very much alive among us encouraging the life and mission of the Sisters.

Paraguay

- 4 communities
- 16 sisters
- Founded in 1967

Argentina

- 1 Community
- 4 Sisters
- Founded in 2001

These 5 small international communities are inserted among the working classes.

In the midst of a suffering, and sometimes violent world, the Sisters are both available and close to the people. In communicating the great love of God for all humanity, they try to be signs of hope and consolation in the midst of the most marginalized and disadvantaged.

Each community has its own mission but at the same time very extensive : all, whatever the age, are part of our evangelization :

- children
- youth
- women
- the sick
- the elderly
- migrants
- poor, needy

In Paraguay as in Argentina, our 'Associates' continue to grow in number and are very close to the Sisters. Despite our small size and our fragility, we are always confident that we journey with our simple people between light and darkness.
